

Instructions

1. Each of the 12 ladders has a snake. You need to devise questions for this board game based on a chapter or chapters from The Ladder the answer to which will either enable the player, if correctly answering to move up the ladder or, if incorrectly answering to slide down the same.
2. Write the 12 questions in the table below. Give the answers on the third page of the sheet. Make the questions sufficiently difficult to make it a real challenge! Use Work Sheet 77 on Vainglory to help you. Try and use a copy of The Ladder for other ideas.
